MiraUSD (MrUSDT) — Whitepaper

1. Introduction
MiraUSD (MrUSDT) is a decentralized, BEP-20 stablecoin built on Binance
Smart Chain (BSC). The goal is to deliver a fast, low-fee, and
transparent digital dollar for all DeFi and crypto users. MiraUSD is
community-powered and independent of any centralized entity.

2. Vision & Mission
MiraUSD aims to provide a reliable, stable digital currency, minimizing
volatility and making it easy for anyone to send, receive, and store
value. We believe financial stability and access should be universal,
without barriers or restrictions.

3. Token Overview
